

DYNA GREEN™

2 Liquid Foliar Spray

PRODUCT INFORMATION

Dyna Green #2 is a liquid foliar formulation designed to correct and prevent deficiencies on citrus and other tropical fruit crops requiring zinc and manganese. Dyna Green #2 will aid in lowering water pH. A jar test to check the compatibilities of new or unfamiliar combinations should be performed prior to mixing and application. The addition of a non-ionic surfactant will aid in surface coverage and leaf absorption and is recommended for both ground and aerial application.

DIRECTIONS FOR USE

Use 1 to 1 1/2 quarts per 100 gallons of water and apply at a minimum of 100 gallons of water per acre. Severe deficiencies use 2 quarts per 100 gallons of water and apply at a minimum of 100 gallons of water per acre. Aerial application: Should not exceed 2 quarts per 5 gallons of water. Do not apply by air unless a non-ionic surfactant is used equivalent to Triton® CS-7 or Chemical Dynamics Active 80.

CROP RECOMMENDATIONS

For citrus and other tropical fruits requiring zinc and manganese: Apply 1 to 1 1/2 quarts per 100 gallons of water. As a soil drench, use 1 quart per 100 gallons of water.

GUARANTEED ANALYSIS

Total Sulfur (S)	4.00%
4.00% Combined Sulfur	
Total Manganese as Mn	2.67%
2.67% Chelated Manganese (Mn)	
Total Zinc (Zn)	3.80%
3.80% Chelated Zinc (Zn)	

Derived from: Manganese lignin sulfonate and Zinc lignin sulfonate.
