

PRODUCT INFORMATION

Dyna Green Organics Copper is a liquid foliar formulation designed to correct and prevent copper deficiencies in most crops. If added to the spray tank first it will aid in lowering the water pH. A jar test to check the compatibilities of new or unfamiliar combinations should be performed prior to mixing and application. The addition of a non-ionic surfactant and /or urea nitrogen will aid in uptake.

CROP RECOMMENDATIONS

Citrus and Fruit Trees: Citrus and Fruit Trees: Use 1 to 2 quarts per acre per application in enough water to cover. Repeat applications as needed.
Vegetables and Row Crops: Use 1 to 2 pints per acre per application in enough water to cover. Repeat applications as needed.
Other Crops Requiring Manganese: Use small rates of 1 to 2 pints per acre in adequate water and repeat in two to four applications.
 Apply a maximum of 8 quarts per acre 10 times per year.

DIRECTIONS FOR USE

Dyna Green Organics Copper should be applied at weekly intervals at 1 to 2 pints per application in enough water to cover.
Aerial application: Apply 1 to 2 pints per acre in enough water to cover.

PRECAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation. Keep container capped when not in use. **Keep Out Of Reach Of Children.** Do not contaminate feed, seed or water supplies. Keep away from children.

CONTAINER DISPOSAL

Triple rinse empty containers and offer for recycling or dispose of in accordance with federal, state and local authorities.

This product is approved for use in organic agriculture by Americert International when used in compliance with the restrictions (if any) included in the Registry Details form issued by Americert International for this product. Be sure to obtain a copy of this form to ensure compliance with the USDA National Organic Program Regulations.
